

PRANJAL SINGH

GEN AI FULL STACK DEVELOPER

(+91) 8791129137
spranjal0137@gmail.com

CAREER OBJECTIVE

Aspiring **Gen AI Full Stack Developer** seeking an internship opportunity to leverage skills in **React.js, Node.js, MongoDB, Generative AI, LLMs, and RAG-based applications**. Passionate about building AI-powered products, contributing to real-world projects, and continuously expanding technical expertise in modern software development and Artificial Intelligence.

PROJECTS

AI mock interview platform

- Developed an AI-powered mock interview platform using **React.js, Node.js, Express.js, and MongoDB Atlas** to simulate real interview experiences.
- Integrated **Gemini API** to generate role-specific and skill-based interview questions dynamically based on user profile and resume data.
- Implemented **Retrieval-Augmented Generation (RAG)** using **Gemini Embedding 001** and **MongoDB Atlas Vector Search** to provide context-aware interview questions and responses.
- Built secure user authentication and authorization using **JWT**, enabling interview history tracking and personalized user experiences.

College placement assistant

- Developed an AI-powered placement assistant using **React.js, Node.js, and MongoDB Atlas** to help students interact with placement-related documents.
- Implemented **PDF upload and text extraction** to process company placement materials, eligibility criteria, and prep
- Built a **Retrieval-Augmented Generation (RAG)** pipeline using **Gemini Embedding 001** and **MongoDB Atlas Vector Search** for accurate document-based question answering
- Integrated **Gemini 2.5 Flash** to generate context-aware responses from uploaded placement documents.

ChatGPT Clone

- Developed an AI-powered ChatGPT Clone with real-time conversational capabilities using the **Groq API for fast** and efficient response generation.
- Implemented microphone and voice input functionality using **Speech Recognition API**, enabling users to interact with the chatbot through voice commands and **speech-to-text conversion**.
- Designed a responsive and interactive user interface with chat history, real-time message rendering, and seamless frontend-backend API integration for enhanced user experience.

EDUCATION

B. Tech CSE

AKTU

Senior secondary Education

CBSE

2023

secondary Education

CBSE

2023

SKILLS

- Frontend** - React.js, Tailwind CSS, API Integration
- Backend** - Node.js, Next.js, Express.js, REST APIs, JWT Auth, SQL, MongoDB
- Gen AI** - LLMs, Prompt Eng., RAG, Vector DB, Embeddings, Gemini API
- Tools** - Git, GitHub, Postman

ACHIEVEMENTS

Achievement

Built MERN Stack project using GEN AI

Achievement

Explored deployment workflows using Vercel and Render.

CERTIFICATES & EXPERIENCE

Workshop - AI

COMET, IIT Roorkee
2025

Course - Java

NPTL
2025
